A large group licence is ideal for practices, groups or organisations with 10 or more users (with no upper limit on user numbers). It offers full configurability of your own dedicated independent installation of Pragmatic Tracker. You have full access at the highest level to all aspects of Pragmatic Tracker. You can create different types of user to meet your needs; directors, managers, practitioners, with varying levels of access to the system. You can build your own measures or have us build them for you. You can have the client profile and session record configured to meet your specific requirements, with many additional fields available beyond those presented as standard within Pragmatic Tracker.

We work very closely and carefully with you through an iterative process of development to get your system as you want it to be. Additional support packages can be purchased at very reasonable cost. We also offer training; on-site or via zoom meeting, to assist you with getting your team off to a great start and encouraging them throughout the process.

Optional extras include payment of a fixed annual fee of £20.00 a year per user to allow sending appointment reminders to clients by text (excluding USA).
